Request for double-check of IDMA exam grading

Dear Jakob,

My exam number is 151.

I am writing because I received the grade 4, corresponding to at least 215 points, but after comparing my answers with the grading guidelines, I believe I should have received more points.

My estimate is:

Problem 1: 10–15 points

Problem 4: 60 points

Problem 5a: 50 points

Problem 7a–7c: 40 points

Problem 9: 120 points

This gives around 280 points, which is above the threshold for grade 7. Could you please double-check my grading or let me know where my point estimate differs from the assessment?

Best regards,
Sabrina
